PROPERTY RIGHTS STATEMENT TO DOE AND NASA (42 USC 2181 & 245) *NOV 02 1995 LICENSING REVIEW*

OK
I, Thomas A. Waldmann, a citizen of the United States of America, residing at 3910 Rickover Road, Silver Spring, Maryland 20902, declares as follows:

That I made and conceived this invention while employed by The National Institutes of Health of the Department of Health and Human Services. That the invention is related to the work I was employed to perform and was made within the scope of my employment duties.

That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and service of The National Institutes of Health.

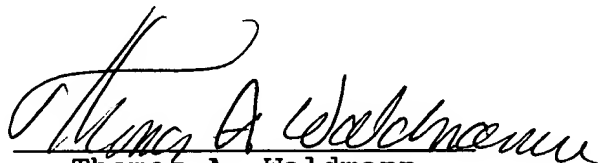

That to the best of my knowledge and belief, the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United

States Atomic Energy Commission or its successors; Energy Research and Development Administration; or the Department of Energy.

That the invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

The undersigned inventor declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or document or any patent issuing thereon.

Date: September 13 1995

Thomas A. Waldmann
